Green Principles

10 GREEN GUIDING PRINCIPLES

- ❖ Switch off any electrical devices while not in use or before leaving the office.
- ❖ Regularly monitor collected materials for reuse and recycling, for improved management and control.
- ❖ Segregate waste and dispose into designated bins.
(e.g., Paper, Plastic, Industrial waste, and general waste).
- ❖ Print only when necessary, and on both sides of paper.
- ❖ Set Air-conditioning temperature at 25°C all times.
- ❖ Off vehicle engines when in stationary, unless outside of traffic or in operational conditions.
- ❖ To prevent leaks, provide drip trays for equipment.
- ❖ Report and fix any water leakage immediately.
- ❖ During procurements, always considers of Singapore green label, energy label and fuel economy label products.
- ❖ Always maintain proper housekeeping.
